Sound Kick | Bluetooth Audio with Reduced Maximum Volume

SOUNDFREQ®

Part No:
TA-04R-BK

Guests use their mobile devices (iPhone, iPad, Android, Blackberry, etc.) for just about everything: to make calls, write emails, browse the web, listen to music, watch movies, play games, and use countless other apps. But it is hard to multi-task with mobile speakers that still require docking. With Bluetooth, you can stream stereo audio to Sound Kick without missing a beat; letting you keep your device exactly where you want it- in your hand.

Sound Kick

Sound Kick | Bluetooth Audio with Hotel Features

Part No:
TA-04R-BK

Wireless Entertainment

Use Bluetooth wireless to enjoy great sound without docking, wires, or headphones. Start your day streaming music conveniently from your smartphone while keeping it close at hand. Relax in bed with your tablet or laptop and enjoy great sound for movies, video, games and apps.

Bluetooth Wireless

Pair & Play to wirelessly stream audio from iPhone, iPod Touch, iPad, Android and Blackberry devices or any compatible A2DP Bluetooth device including: smartphones, mobile phones, tablet PCs, and laptops / Bluetooth Class 2.0 + EDR / Range: 10m, 33'

Fits Your Night Stand

The compact design of Sound Kick takes up minimal space leaving ample room on your night stand for glasses and books. Manufactured in durable plastic, Sound Kick's minimal design is available in a selection of colours and with options for bespoke colours and patterns.

Sound performance

- Balanced audio with natural bass and vocal clarity to enjoy every genre of music, anywhere
- XKICK™ speaker chamber closes compact for travel and expands open for full sound
- J-port™ extends low frequency bass for balanced acoustics
- UQ3™ spatial sound enhancement expands stereo sound stage for immersive sound

Connectivity

Bluetooth wireless A2DP compatible

- Aux in 3.5mm line jack compatible with any device with standard headphone jack
- Universal USB power port charges compatible USB devices both when Sound Kick is plugged in to AC power and operating on battery power

Compatible Today and Tomorrow

Bluetooth is the wireless standard for mobile devices, which makes Sound Kick easy to pair with all of your mobile devices, share with friends and makes it compatible with future devices.
